

DATA SHEET

Version: 2

Revision date: 17/02/23

1. Identification

| | |
|---------------------|----------------------------------|
| Product name | Dymethyl sulfoxide (DMSO) |
| | 100 mL |
| Cat. No | BR0215 |

2. Description

Dimethyl sulfoxide (DMSO), Molecular Biology Grade, is an organosulfur compound and polar aprotic solvent routinely used in organic chemistry and molecular biology.

3. Specifications

| | |
|--------------------------|------------------------------------|
| Molecular formula | (CH ₃) ₂ SO |
| M | 78.13 g/mol |
| CAS | [67-68-5] |
| Appearance | Clear, colorless liquid |
| Water | ≥ 99.9% |
| Density | ≤ 0.1% |
| RNase | None detected |
| DNase | None detected |

4. Storage specifications

Store at room temperature.

DMSO will congeal easily and may remain a solid at cool temperatures. Warm slightly to return to liquid state.

5. Further information

Product Use Limitation This product is developed, designed and sold exclusively only for research purposes use. The product was not tested for use in diagnostics or for drug development, nor is it suitable for administration to humans or animals.

Disclaimer The information provided in this Data Sheet is correct to the best of our knowledge and belief at the date of publication. This information is intended only as a guide and should not be taken as a warranty or quality specification. Canvax Reagents S.L.U. shall not be held liable for any damage resulting from handling or from contact with the above product.
