

## DATA SHEET

Version: 2  
Revision date: 19/12/2025

### 1. Identification

**Product name**            **Bacteriostatic Water, Sterile****Cat. No**                    **E0328** 10 units of 30 mL/each  
**E0329** 10 units of 10 mL/each

### 2. Description

**Bacteriostatic water** is an essential tool for researchers. In contrast to standard sterile water, which is designed for single use and must be disposed of after opening, bacteriostatic water can be safely reused within a 28-day window.

This type of water, commonly used in scientific experiments, is free of pyrogens and includes 0.9% benzyl alcohol, which serves as an effective bacteriostatic agent. The presence of benzyl alcohol prevents bacterial growth, allowing the water to remain safe for repeated use throughout the month.

### 3. Specifications

**Format:** Liquid, Ready-to-use solution**Composition:** WFI Water (99.1%) and Benzyl Alcohol (0.9%).**Sterilization:** purified using a 0.22 µm filtration process (aseptically filled)

### 4. Shipping and Storage specifications

**Shipment** at Ambient Temperature.**Storage:** Room Temperature (15 - 25 °C). We recommend to limit exposure to extreme temperatures that may affect this product.**Recommendation:** Once opened, the vial should be used within 28 days to maintain safety and efficacy, after which it should be discarded. Always check the expiration date before using, and discard the vial if the solution appears discolored or contains particles.

### 5. Applications

For Research Use Only or Further Manufacturing. Not for diagnostic use or direct use in humans or animals.

### 6. Quality

Manufactured in an **ISO 13485:2016 and GMP-certified facility**, located in Boecillo, Valladolid (Spain), under ISO9001:2016 procedures to ensure the highest quality standards.

### 7. Further information

**Product Use Limitation**    This product is developed, designed and sold exclusively only for research purposes use. The product was not tested for use in diagnostics or for drug development, nor is it suitable for administration to humans or animals.**Disclaimer**                The information provided in this Data Sheet is correct to the best of our knowledge and belief at the date of publication. This information is intended only as a guide and should not be taken as a warranty or quality specification. Canvax Reagents S.L.U. shall not be held liable for any damage resulting from handling or from contact with the above product.
